

LIVE AUCTION SALE

IMPORTANT LIQUIDATION AUCTION SALE

WAREHOUSE CLEARANCE OF 1st. CLASS TEXTILE MACHINERY

VAMATEX HI-SILVER RAPIER LOOMS yr 2007/CALANDER yr 2002/PENTEK TUMBLER yr 2006
STENTER BRÜCKNER/HT+ATMOSPHERIC JIGGERS yr. 2000/OSTHOFF SINGER 3000 mm
and LOT OTHERS

LIVE AUCTION DIRECTLY AT THE MACHINES

PRIVATE SALE

Via Osella 13, IT – 13011 Borgosesia (VC)

Due to the clearance of warehouse, following machinery will be on a
LIVE AUCTION SALE DIRECTLY IN FRONT OF THE MACHINES

6th. November 2019 at 11 a.m.

by Textile-Xperts, Oliver Anderhub

FINITEX S.r.l, Via Osella 13, IT – 13011 Borgosesia (VC)

Pre-view of machinery 04/05/06th. November 2019, 9 – 5 p.m.
or from now on at any time on request

INTRODUCTION:

Several 1st. Class high Quality textile machineries in weaving preparation, weaving, dyeing and finishing machines in the property by the company IMCOTEX S.r.l. in Italy, Biella. These machines have been professionally dismantled and shifted into their warehouse in INVERUNO of M/S FINITEX S.r.l.

Offering to potential customers in the national and international Textile Industry as advantage of having machines available for immediate delivery/collection, we are herewith pleased to summarize the available machines here on an LIVE LIQUIDATION AUCTION SALE, which takes part directly in front of the offered machines.

PROCEEDURE

The machines listed here are all available at the in the front page listed warehouse and can be inspected at any day or upon appointment. The given bidding numbers on the LIVE LIQUIDATION AUCTION SALE of machines from INVERUNO, are also for this Auction valid.

Once the inspection carried out, the listed machines will be AUCTIONEERED directly in front of the offered machines. The terms and conditions are mentioned at the end of list.

- 200 12 x VAMATEX LEONARDO HIGH SILVER RAPIER WEAVING MACHINES, year of make 2006, reed width 2100 mm, comprising out of electronic dobby machine make FIMTESSILE type 7P, 20 levers suitable for 20 undermotion lever bars, 8 color weft, electronic let off, 6 contact bars, 10 heald frames, type OMV SPEEDFIX ULTRALIGHT, approx 10000 droppers/heddles, 4 weft accumulators ROJ CHRONO X2, machines are on batcher which are NOT part of delivery as left inside mill, machines will be with cloth roll attachment (not yet installed), machine with 1 warp beam disc diameter 800 mm
- 201 1 x SPEROTTO RIMAR OPEN WIDTH COMPACTING machine for knit fabrics, type CK240, year 1999, high entrance with tension bars, roller width 2400 mm, max fabric width 2200 mm, inlet with CORINO spreading/expanding device, compacting unit, delivery onto plaiier
- 202 1 x UCIMO Italy, lathe
- 203 1 x lathe no name
- 204 1 x GORNATIC, Italy, lathe
- 205 1 x ANBAS horizontal saw on stand
- 206 1 x PUGI SCUFIFILO yarn collector for detwisting device
- 207 1 x hydroextractor make OFFICINE MINETTI, ITALY, year of make 1999, type 1600, diameter 1600 mm
- 208 1 x SQUEEGEE GRINDING device
- 209 1 x small power generator make LOMBARDINI DIESEL
- 210 FNX037
1 x CTM fully automated packaging machine for fabric rollers, Model i50PL250, year 1995, No. 2080, Diameter 500 mm, width 1800 mm, longitudinal and head sealing, capacity 120/150 rolls p/hr
- 211 1 x ROLLMAC coating head type RB160/3, No.93261, year 1993, roller width 1800 mm
- 212-1 1 x BRONGO STONE WASHING machine, Model L3500, year 1996/1997, automatic unload, size diameter 1700x1300 mm, 180 r/pm
- 212-2 1 x BRONGO STONE WASHING machine, Model L3500, year 1996/1997, automatic unload, size diameter 1700x1300 mm, 180 r/pm
- 212-3 1 x BRONGO STONE WASHING machine, Model L3500, year 1996/1997, automatic unload, size diameter 1700x1300 mm, 180 r/pm
- 212-4 1 x BRONGO STONE WASHING machine, Model L3500, year 1996/1997, automatic unload, size diameter 1700x1300 mm, 180 r/pm
- 212-5 1 x BRONGO STONE WASHING machine, Model L3500, year 1996/1997, automatic unload, size diameter 1700x1300 mm, 180 r/pm
- 213 FNX119
1 x RAMATEX dye winch year 2000, No. 07/00R, roller width 1500 mm, capacity 100 kg

- 214 FNX117
1 x MINOX dye winch Model MOLINELLO, roller width 800 mm, capacity 50 kg
- 215 1 x stainless steel open top tank 3400 x 1400 mm
- 216 FNX124
1 x RAMATEX padder year 1999, No. 35/99R, 2 rollers, pneumatic pressure, roller width 2000 mm with entrance device
- 217 1 x BETA PADDER with 3 rollers, pneumatic pressure, No. 723, year 1983, 2100 mm roller width
- 218 1 x BETA PADDER with 3 rollers, pneumatic pressure, year 1981, 2100 mm roller width
- 219 1 x 2 roller CALANDER machine make ANZINI, year 2001, 50 tons pressure, mounted on rame in 1 block, roller width 2000 mm, 1 cylinder STAINLESS STEEL CHROMIZED and POLISHED, 1 RACOLAN cylinder, seam detectors, INVERTER drive
- 220 FNX039
1 x A&B GROUP (ALBATECH BINOVA) rope opener model LINEA APRICORDA year 2008, No. 00542, motorized FLUO centerer device, roller width 2000 mm, speed 80 mtr/min, exit by folder
- 221 1 x MULTIDECATIZING MACHINE make SPEROTTO RIMAR, Model MD2, No. 2444, year 1991, 2000 mm roller width
- 222 1 x HYDROEXTRACTOR make CIMA IMPIANTI No. 2435, year 203, 1700 PCS, diameter 1700 mm
- 223 1 x tower crane with tower and arm, 1000 kg
- 224 1 x MCS AIR JET 2 HT, year 2001, 2 tubes, complete with MICROPROCESSOR TERMOELETTRONICA
- 225 1 x ARIOLI sample STEAMER year 1990, No. 2540, with panel and accessories
- 226 1 x ARIOLI LOOP STEAMER year 1987, type MINIVAPO, 80 mtr fabric contents, thermo oil heating system, roller width 2000 mm
- 227 1 x MCS high temperature JET dyeing machine Model EUROFLOW, year 2001, 3 tubes, TERMOELETTRONICA CT81 programmer, 600 kg fabric contents
- 228 1 x OSTHOFF SINGEING/DESIZING machine type U80, roller/stone width 3000 mm, year 1982, high entrance with bow and tension bars, edge guiding, singeing machine with 2 singe stones, desizing compartment, squeezing mangle, delivery by batcher/plaiter, excellent condition.
- 229 FNX044
1 x ZONCO scour, soften and dry oven for woven and knitted fabrics in rope, Model EOLO, year 1995, No9595.04, 2 channels, load capacity each channel from 100-400 mtr, production speed 80 mtr/min, maximum processing temperature 140°C, ZONCO processor
- 230 1 x MCS HIGH TEMPERATURE sample jet dyeing machine year 1983, 20 kg capacity, No. 4079
- 231 1 x MCS HIGH TEMPERATURE dyeing machine type MULTIFLOW MF 1HT, year 2001, 1 rope with TERMOELETTRONICA CT310/LAN programmer with hot water storage tank
- 232 1 x MCS HIGH TEMPERATURE dyeing machine type MULTIFLOW MF 1HT, year 2001, 1 rope with TERMOELETTRONICA CT310/LAN programmer with hot water storage tank
- 233 1 x MCS HIGH TEMPERATURE dyeing machine type MULTIFLOW MF 1HT, year 2001, 1 rope with TERMOELETTRONICA CT310/LAN programmer with hot water storage tank
- 234 1 x horizontal waste bale press MAKE LTG
- 235 1 X MCS atmospheric dye JIGGER year 1991, 1800 mm roller width, No. 4018, 2760 ltr
- 236 1 x ZONCO milling/washing machine for woolen fabrics, 4 channels

- 237 1 x ZONCO milling/washing machine for woolen fabrics, 4 channels
- 238 1 x ZONCO milling/washing machine for woolen fabrics, 4 channels
- 239 1 x tubular folding machine
- 240 1 x hank packaging machine make MOLINE
- 241 1 x sample dyeing machine make BONI-BULGARELLI, Model CD, No. 618, type 1 year 2008
- 242 1 x laboratory stenter frame make MATHIES
- 243 1 x COMPRESSOR model CPO300AX type 967A
- 244 1 x detwisting unit make CORINO APPRICORDA year 2000, No 99/1000, roller width 2400 mm, with spiral roller, centering device, delivery onto A-frame
- 245 1 x detwisting head only BIANCO
- 246 1 x MT bagging machine make CCM 220, year 2000, 2400 mm roller width, with folding device
- 247 1 x MT TUBULAR REVERSING machine year 1980, tube length 4700 mm
- 248 1 x historical cut press manual
- 249 FNX005
1 x ALEA steam dryer model CA57, year 1997, No. 34/99R, roller width 2200 mm, steam heated, single pass, exit by folder
- 250 1 x ROLLMAC dosing foamer pump unit movable with pump
- 251 1 x rotary expanding unit 2000 mm roller width
- 252 1 x TROFIX discontinuous tumbler steam heated with diameter of 1180 mm, depth 120 mm, capacity 44/60 kg, water steaming 75/90 kg, with steam spray
- 253 1 x TROFIX discontinuous tumbler steam heated with diameter of 1180 mm, depth 120 mm, capacity 44/60 kg, water steaming 75/90 kg, with steam spray
- 254 1 x AUTOMAZIONE cloth inspection, rolling and packing machine serie M25/02, year 2001, 2000 mm roller width, upper/lower light table, cutting unit, tension free entrance, feeding, batch winder with separate motor driven unwinder and winding device
- 255 1 x set of GRUNDFOSS pumps
- 256 1 x BIANCO COMBI WEFT/BOW STRAIGHTENER year 2015, type COMBINATO RADIZZATRAMA, No. RD SDP OOU 22H 1254, year 2015, roller width 2000 mm, with top installed wheel feeding, lower part with 4 optical sensors, touch panel, entrance with feeding frame, spiral roller, rotary expanding device
- 257 1 x BIANCO WEFT/BOW STRAIGHTENER with 4 sensors, year of make 2000, 2000 mm roller width
- 258 1 x hydroextractor make PUCCI, diameter 1000 mm with rim
- 259 FNX029
1 x EUROMETALLICA cloth inspecting machine Model FR60, year 2003, No. 271, folder to folder, roller width 2000 mm, worker platform, meter counter, tilt table
- 260 FNX 026
1 x EUROMETALLICA cloth inspecting machine Model FR60, year 2003, folder to folder, roller width 2000 mm, worker platform, meter counter, tilt table
- 261 1 x EUROMETALLICA cloth inspecting machine Model FR60, year 2003, folder to folder, roller width 2000 mm, worker platform, meter counter, tilt table

- 262 1 x OMI DRYER Model ER550, steam heated, capacity 150 kg, year 2001, size diameter 1800x2000 mm, INVERTER, with automatic feeder
- 263 FNX91
1 x MINOX atmospheric JET DYE machine Model FLOW 98°C, year 1989, No. 1272, capacity 300 kg,, 3 rope, SCALE temperature controller
- 264 3 x A-frame electric puller, 1 working, 2 as spare parts
- 265 1 x F.ILLI ROSA dryer year 2003, 80 kg capacity with loading device
- 266 1 x F.ILLI ROSA dryer year 2003, 60 kg capacity with loading device
- 267 1 x MCS HIGH TEMPERATURE beam dye machine year 1999, 2000 mm roller width, 2650 ltr capacity
- 268 1 x BIANCO WEFT/BOW STRAIGHTENER year 2000, roller width 2000 mm, 4 optoelectronic heads
- 269 1 x MERCERIZING MACHINE MAKE POZZI/BABCOCK, year of make 1995, in 2011 completely revised with NEW inverter drive system, roller width mercerizing compartment 1830 mm, WASHING machine roller width 2000 mm, comprising out of high cloth feeding frame, above entrance installed cropping and brushing unit, deviation rollers for feeding into J-box for interruptionfree production, centering and expanding device, edge uncurlers make ERHARDT & LEIMER type KF4, entrance into MERCERIZING compartment with 10 lower/10 upper rollers, squeezing unit, entrance into STABILIZING compartment with 5 upper/5 lower rollers, squeezing mangle, feeding into NEUTRALISATION compartment comprising out of 4 washing chambers, 1st.washer with 6 upper/8 lower rollers, 3 washing compartments with each 5 upper/5 lower rollers, total capacity approx 51 mtr,each washing compartment with squeezing mangle, delivery of fabric onto FINAL SQUEEZING unit, delivery onto big batcher, machine drivewise and electronically completely converted in year 2011
- 270 1 x MARIO CROSTA wool calander NO. 4645, YEAR 1977, TYPE CSBA with wheel straightener, roller width 2000 mm
- 271 FNX
1 x GUIDO REGIS inspecting machine Model VV94 H1800, year 2000, No.1023, folder to folder, roller width 1800 mm, worker platform, meter counter, tilt table, with 1 MAHLO COLOR scan unit control Model CIS10, year 1999, No. 4710/1/018, roller width 2000 mm
- 272 1 x ROUSELETTE hydro extracor diameter 1200 mm
- 273 1 x PENTEK continuous tumbling machine type ENAIRGY L, year 2008, 2 sections, roller width 2000 mm, with entrance, steaming device at entrance, delivery onto plaiter, steam heated
- 274 1 x BIANCO WEFT/BOW STRAIGHTENER, manual with CORINO expanding unit, 2000 mm roller width
- 275 FNX035
1 x TESTA EUREKA rolling/inspecting/packing machine Model 111 TN, No. 14, year 1992, roller width 2000 mm
- 276 1 x LISA CARBON brushing machine model LISA3F, year 2002, 3 brushes, roller width 1900 m
- 277 1 x SPEROTTO RIMAR TUBULAR COMPACTOR Model TS150, year 1990, modernized in approx 2010, with magnetic spreaders
- 278 1 x MCS HIGH TEMPERATURE jet dyeing machine Model EF 1U HT, year 2009, 1 tube, TERMOELETTRONICA programmer PCX, with 2 chemical tanks
- 279 1 x MCS HIGH TEMPERATURE jet dyeing machine Model EF 1U HT, year 2009, 1 tube, TERMOELETTRONICA programmer PCX, with 2 chemical tanks
- 280 FNX132
1 x TVE ESCALE atmospheric dye JIGGER, type TURBO JIGGER 800, year 2001, No. OT608, roller width 2000 mm, internal vacuum for bath circulation, batcher

- 281 FNX136
1 x atmospheric dye JIGGER MEZZERA/RAMATEX 2000 mm roller width
- 282 FNX134
1 x MEZERRA dye JIGGER model VGJ/2, year 1998, No. 240.98141, roller width 2000 mm, diameter 120 mm
- 283 FNX131
1 x TVE ESCALE atmospheric dye JIGGER, type TURBO JIGGER 800, year 2002, No. OT627, roller width 2000 mm, internal vacuum for bath circulation, batcher
- 284 Not listed as sold
- 285 FNX128B
1 x atmospheric dye JIGGER make TVE ESCALE system Model TURBO JIGGER 300, year 2003, No. OT643/2, roller width 2400 mm with suction hood
- 286 FNX134
1 x atmospheric dye JIGGER make TVE ESCALE system Model TURBO JIGGER 300, year 2003, roller width 2400 mm with suction hood
- 287 1 x atmospheric dye JIGGER make TVE ESCALE system Model TURBO JIGGER 300, year 2003, roller width 2400 mm with suction hood
- 288 1 x cloth roll, inspection, rolling machine make ATF, AUTOMAZIONE TESSILI FRIGENIO, Model PRECISA No. 98.112.1998, year 1998, roller width 2200 mm, suitable for woven and knit fabrics due tension free transportation by belt, upper/lower inspection light, delivery onto batching motion with edge correction
- 289 1 x cloth roll, inspection, rolling machine make ATF, AUTOMAZIONE TESSILI FRIGENIO, Model PRECISA No. 98.112.1998, year 1995, roller width 2200 mm, suitable for woven and knit fabrics due tension free transportation by belt, upper/lower inspection light, delivery onto batching motion with edge correction
- 290 1 x fabric roll foil wrapping device make ATF, AUTOMAZIONE TESSILI FRIGENIO, type PLAST450, No. 98.116, year 1998, roller width 2800 mm, with plastic foil unwinding device, edge welding, delivery arm
- 291 1 x SET of transportation belts for winding/wrapped cloth roll for feeding into any boxes, 8 transportation belts with 2 different length of belts
- 292 1 x TRÜTZSCHLER CONDENSING MACHINE type LVSA year 1998
- 293 1 x TECNOTEAM rest cone weighing unit(rest cone from loom) Model V602, No. 121212 year 2013, comprising out of manual feed of rest cone, transportation section, weighing section, label printer with printing weight
- 294 1 x ARIOLI LOOP STEAMER roller width 3400 mm, Model VBS, No. 7099, year of make 2003, INVERTER, fabric contents 300 mtr, steam heated
- 295 FNX009
1 x GUIDO REGIS SHEARING range Model RG80, FALDA 2ST, H2000, No. 1117, completely renewed in 2001 and fully automatized, roller width 1800 mm, 5 cutting sets, 3 right and 2 reverse, 3 shearing head with tiger, automatic table, metal detector, seam detector, machine with INVERTERS, exit by folder, complete with dust aspiration unit / trouser filter
- 296 FNX011
1 x SPEROTTO RIMAR continuous decatizing machine model MULTIDECAT, year 1978, No. 1792/1900, roller width 1900 mm, decatizing cylinder 1200 mm, exit by folder
- 297 FNX019
1 x MARIO CROSTA discontinuous decatizing machine Model DSS/E, year 1993, No. 6429, roller width 1950 mm, decatizing cylinder diameter 900 mm, maximum loading mtr 250-500 mtr, exit by batcher
- 298 1 x SET of 8 stainless steel tanks with stirrer

- 299 1 x SET of 10 electric panel boards
- 300 2 x METTLER TOLEDO electric weighing scales
- 301 1 x CAMYTEL steaming table model 220
- 302 1 x Laboratory washing table
- 303 1 x movable steam jet scrubber make GHIBLI type 101 diesel fired
- 304 1 x complete set of INDEPENDENT FIRE FIGHTING UNIT with diesel generator for power, comprising out of diesel generator make LOMBARDINI ITALY tye 5LD 824-3B, DGM51/5972 OM, complete with control
- 305 1 x LIGHT BOX
- 306 1 x LIGHT BOX
- 307 1 x weighing scale GLE ELECTRONIC
- 308 1 x weighing scale type EL ELECTRIC
- 309 1 x weighing scale SPES mechanc
- 310 1 x weighing scale METTLER PM 34K DELTA RANGE
- 311 1 x weighing scale LUXNER max 12 kg
- 312 1 x weighing scale FULGOT
- 313 1 x weighing scale EXPLORER ELECTRIC
- 314 1 x weighing scale GIBERTINI EUROPE 500
- 315 1 x CALIBRATION DEVICE INTERNATIONAL TEXTILE for confectioning
- 316 1 x weighing scale electric EUROBIL
- 317 1 x sewing machine make LINDER with table
- 318 1 x steam pressure table make MACPI Model 206/207
- 319 1 x steam pressure table make ALTEX
- 320 1 x steaming table make MALAVASI GIANNI
- 321 1 x sewing machine with table make PFAFF
- 322 1 x sewing machine with table make RIMOLDI
- 323 1 x sewing machine with table make RIMOLDI
- 324 1 x sewing machine with table make PFAFF
- 325 1 x BIO WASH TABLE make BIO CIRCLE
- 326 1 x LAFER trouser filter unit with 2 fans, 12 trouser filter and waste collector
- 327 1 x WET ROUND movable TROLLEY for the collection of circular/tubular wet fabrics made from stainless steel
- 328 1 x WET ROUND movable TROLLEY for the collection of circular/tubular wet fabrics made from plastic
- 329 7 x plastic wet fabric collection and transportation units in 4 corner shape

- 330 3 x stainless steel wet transportation trolleys
- 331 1 x INDUSTRIAL TUMBLING MACHINE type PRIMUS, type T24, year 2007, No. 24T/002412LC, 24 kg
- 332 1 x INDUSTRIAL WASHING MACHINE make PRIMUS, FS6, year 2011, No. 6F002341TV
- 333 1 x INDUSTRIAL TUMBLING MACHINE make PRIMUS, type FS33, year 2007, No. 33F001595LC
- 334 1 x INDUSTRIAL TUMBLING MACHINE make PRIMUS, type FS33, year 2007, No. 33F001803NR
- 335 1 x USTER TENSORAPID strength testing machine
- 336 1 x MATHIES laboratory levelling stenter frame
- 337 1 x CROCKMETER manual
- 338 1 x INNOLAB laboratory dyeing machine with controller and 8 pots
- 339 1 x JAMES HEAL DIGITAL TEAR TESTER type 855, series ELEMENTAR
- 340 1 x set of small laboratory equipment comprising out of weigh scale, water tester, etc
- 341 1 x MIELE GALA GRANDE T8000A sample tumbler
- 342 1 x AIR CONDITION unit make CLIMAVENETA with INVERTER
- 343 1 x LABORATORY SAMPLE WASHING FASTNESS TESTER make INNOLAB with control, type VISION-LITE
- 344 1 x LIGHT BOX
- 345 1 x CALIBRATION SYSTEM make GROUP OF COMPANIES year 2004
- 346 1 x LABORATORY levelling stenter frame make MATHIES
- 347 1 x CONTROLAB strength testing device
- 348 1 x laboratory sample dye machine with 24 pots
- 349 1 x MARTINDALE PILLING TESTER with 6 positions
- 350 1 x laboratory oven steam heated
- 351 1 x HQ 30 Dr. Lange Germany water testing devive
- 352 1 x weighing scale min 2,5 - max 150 kg
- 353 FNX049
1 x CORINO grey fabrics preparing machine, roller width 2200 mm, accumulator belt for fabric rolls, unrolling device for fabric rolls, traction roller, J-box acumulators, brushing unit, aspiration system, exit by folder
- 354 FNX059
1 x TECORAMA laboratory sample dye dosing unit type DOSORAMA, year 1992, No. 69, with METTLER TOLEDO SCALE and cabinet
- 355 1 x MARIO CROSTA SHEARING machine type CMA1, No. 4009, 2400 mm roller width complete with entrance, 1 shear head, delivery onto plaiter
- 356 3 x palettes with STENTER FRAME spare parts comprising out of ARTOS upper chain clip part, electric parts, valves
- 357 1 x TUBULAR reversing machine complete with reverse tube, delivery onto plaiter, year approx 1995

- 358 4 x racks with electric spare parts, all inside in included including the rack
- 359 FNX118
1 x MINOX HIGH TEMPERATURE dyeing machine type FLOW JET PRESS, LONG TUBE SERVER, 2 tubes, year 2001, No., 01/300218/B, capacity each tube 150 kg, TERMOELETTRONICA CT301 LAN programmer, INVERTER
- 360 FNX089
1 x MINOX atmospheric JET dye machine Model FLOW98°C, year 1992, No. 1598, capacity 30 kg, 1 rope, SALCE controller
- 361 FNX088
1 x MINOX atmospheric JET dye machine Model FLOW98°C, year 1992, No. 1599, capacity 30 kg, 1 rope, SALCE controller
- 362 FNX085
1 x MINOX atmospheric JET dye machine Model FLOW98°C, year 1992, No. 1611, capacity 30 kg, 1 rope, SALCE controller
- 363 FNX086
1 x MINOX atmospheric JET dye machine Model FLOW98°C, year 1992, No. 1612, capacity 30 kg, 1 rope, SALCE controller
- 364 FNX087
1 x MINOX atmospheric JET dye machine Model FLOW98°C, year 1992, No. 1613, capacity 30 kg, 1 rope, SALCE controller
- 365 FNX098
1 x MINOX atmospheric JET dye machine Model FLOW DUE 98°C, year 1995, No. 1704, capacity 50 kg, 1 rope, 2 overflow, SALCE Model 731 temperature controller
- 366 1 x BRÜCKNER STENTER/HEATSETTING FRAME FOR WOVEN and KNIT fabrics, year 1998, type SPLIT FLOW, working width 2000 mm, 6 chambers, thermo oil heated, horizontal pin chain, comprising out of high fabric entry with tensioner, ERHARDT & LEIMER edge uncurlers pneumatic type KF 2020, overhead inspection bridge with components of QUALITY control, fabric entry onto chain with ERHARDT & LEIMER optoelectronic width control and camera, 3 finger uncurling unit, overfeed device, brush to clean pin, 6 chambers drying and heatsetting chambers type SPLIT FLOW, thermo oil heated, double motors and double fan each chambers, automatic shut down and control of valves, cooling zone at exit, feeding at exit of stenter by plaiter and batching motion, electronically completely upgraded in 2014
- 367 1 x MAHLO WEFT/BOW STRAIGHTENER, type RFMC 10P, year 1999, roller width 2000 mm, with exit MAHLO straightener, 4 optoelectronic eyes with screen
- 368 FNX096C
1 x MINOX atmospheric JET dye machine Model FLOW ATM 98°C, year 1985, capacity 50 kg, 1 rope with SALCE Model 731 temperature controller
- 369 FNX095
1 x MINOX atmospheric JET dye machine Model FLOW ATM 98°C, year 1985, No. 793, capacity 50 kg, 1 rope with SALCE Model 731 temperature controller
- 370 FNX094
1 x MINOX atmospheric JET dye machine Model FLOW ATM 98°C, year 1985, No. 794, capacity 50 kg, 1 rope with SALCE Model 731 temperature controller

TERMS AND CONDITIONS OF AUCTION

1. The auction sale of the machinery shall take place for and on behalf and for account of the legal right machine owner of the said company FINITEX S.r.l., appointed for liquidation the said machineries as they are and how they are, which will be marked on the invoice. The bid shall be awarded to the highest bidder unless no higher bid is offered after the third call. Minimum offers, if required, will be determined by the auctioneer.
2. The auctioneer shall have the right to change items from the sequence of the catalogue, to separate numbers and positions and/or to combine them, to accept bids with provision subject to clearance or to reject bids that are considered as being too low. The auctioneer reserves the right to query individual bids, and to request the interested parties to submit their bid. The auctioneer may refuse a bid for justified reasons.
3. Whenever any doubt arise as to the validity of the highest bid, in particular if the highest bidder wants to disallow or recind his bid, or if there is any doubt about the award, the decision of the auctioneer shall binding and solely valid, to which decisions all bidders are submitting themselves by mere participation of the bidding procedure. If necessary the auctioneer may cancel the award and auction those machine items and positions again.
4. The earnest money to be paid by the buyer is 10,0 % of the highest bid. Legally applicable and actual valid value added tax of Italy shall be paid on the amount of the bid which is actually 22 % covering the cost for auctioned machine plus auctioneers fee. The full payment of the purchased machines shall be made by bankers draft or by cheque with irrevocable bank confirmation or in cash. The payment must be made immediately after auction is finished to auctioneer. Normal cheques will be accepted in lieu of payment but machinery and auctioned items can only be released/collected after the amount has been credited onto account of seller without any subjects. Payment of the awarded machinery can be accepted in lieu against irrevocable documentary Letter of Credits. The processing of a Letter of Credit can be handled provided same will be opened in favour of the auctioneer, payable and available in Spain. Any bank charges out of a Letter of Credit are payable by the buyer. Letter of Credits must bear the ' add confirmation ' instruction.
5. Releasement and collection of machinery are based that the purchase price has been credited onto the account of the auctioneer without any subject. Cash payment at day of auction sale will be acceptable. In case of delay in payment the auctioneer will charge an interest rate of 1,5 % per month or each month began. Buyers from overseas countries, who are not members of the EU, do have to pay the value added tax/VAT immediately while invoice will be handed over. The paid VAT/USI. will be taken as guarantee and shall be refunded immediately after having received the official export declaration or forwarders certificate showing goods exported overseas. Customers from the EU have to show their registered USt.Identnummer (European VAT Ident number). In this case, sales to clients from EU countries do not have to pay the VAT of 22 %, except machines remain in Italy, clients have to pay the Italian VAT of 22 %.
6. The invoices distributed on the day of the auction are subject to any correction or amendment after print in order for verification and amending of any possible errors.
7. Upon payment of the auctioned machines the machines/objects auctioned are considered as having been handed over to the buyer. At this time, liability and risk of accidental perishing, loss, damage or whatsoever, shall be deemed as passed over to the buyer. Buyer is responsible to insure goods at his risk and costs.
8. The award of ownership of the object auctioned, first occurs after the complete payment of the sales price, the earnest money and value added tax have been made, and shall be released for collection by written approval of the auctioneer.
9. In the event that payment of the auctioned objects is not effected after auction has been finished and not in due time and not in accordance to the para No. 5, or if the object auctioneered are not collected in due time, the seller shall after the expiry of a grace period by requesting to arrange necessary payments, have the right to require compensation, loss, damage, extra charges or has right to dismantle the machine, store and warehouse the machine on cost and risk of the buyer and the right to sell the machine and objects again. The beforesaid will be for the liability and responsibility of the buyer. Any loss or damage occure will be for account of buyer. The buyer irrevocably and unreservedly submits these agreements with the entry of the site as per § 4.
10. The period of the time allowed for the collection of the purchased machines has been mentioned in the catalogue. The auctioneer allows a collection of machinery until 30.03.2020.
11. Transport and dismantling of the machines purchased at auction will be executed at the cost and risk of the buyer. The buyer is responsible for any damages, loss at the property of the seller or third parties and machines. Should opening of building or section of buildings and/or walls be necessary for the removal of objects purchased, the buyer has to request permission of seller. In case permission by the seller for such openings given, buyer is responsible to open/close holes by qualified companies. Is any wall opening required the seller/auctioneer has the right to ask for security deposit on objects which in their removal could cause damages or property and/or real estate of a third party. Notice of these objects in question and the amount of deposit can be given upon request.

12. The object available on auction can be viewed as per catalogue prior to the auction date. No warranty shall be assumed for the catalogue information, such as technical data, dimensions, quality, quantity or similar details of the machines. Machines or items will be sold in the condition how they are, where they are, in condition and design as inspected by the buyer without any responsibility or liability for the seller/auctioneer or whatsoever.
13. Biddings in writing will be accepted subject bidder mention position and maximum bidding price plus auctioneers tax and adding VAT enclosing bankers draft/cheque with bankers guarantee addressed to O.Anderhub, Suedallee 75, D-40593 Duesseldorf-Germany or by eMail under : ttecgmbh@aol.com
14. The entrance of the premises of the textile dying and processing mill Inveruno will be on own risk. No liability for damages at buyers will/can be made on seller/auctioneer. With entrance, the terms and conditions are accepted by the buyers without any subject irrevocably.
15. The terms and conditions of the auction sale are valid for any after sales.
16. Buyers are accepting the terms and conditions of the auction without any subject by entering the auction place.
17. Place of collection / delivery is actual location of machines, for payments Inveruno/Duesseldorf. Place of jurisdiction is Milano/Italy. Italian law applicable.
18. The listed machines are subject to withdrawal or mistakes.
19. A registration for bidding can be carried out prior to the auction. For registration we require the company details, EU VAT Identnumber as mentioned underneath to be filled form, scanned and eMailed.

GUARANTEE PAYMENT
